WEST COAST CHI ALPHA

growing where we are

West Coast Chi Alpha family

What a run! June 1st marked our official first year of ministering as West Coast Area Directors for Chi Alpha and it has been glorious! We pray this snapshot of the last few months will be as encouraging to you as it has been to us living them out. From the depths of our hearts we thank you for extending the provision and intercession of our Father's love over our family and ministry.

God's graced our AnderSix tribe with great joy in the thousands of miles traveled together ministering across our west coast region.

We set a new record for couples selfies this year...but she is so beautiful I couldn't help myself.

West Coast Chi Alpha planting

**Daniel and Noreen McGaffee
are pioneering Chico State
Chi Alpha
after serving 20 years in
world missions!**

What a blast it has been to witness this historic attraction of laborers to the university mission field! God continues to surface the story He is writing over CalPoly SLO...I'll soon meet with a couple looking into full-time missionary appointment. In addition, four full-time missionaries have recently risen to plant Chi Alpha at California State University, Chico and University of Pacific, Stockton during the 2016-17 academic year! Meanwhile the Ribline's at Northern Arizona University have seen incredible fruit on campus and just finished the process of becoming a training site for new campus missionaries this Fall. This will be our first Campus Missionary in Training site in Arizona! In addition, we're currently working on the developments of a SoCal CMIT site. God is gracing to make ourselves ready for the coming harvest!!

West Coast Chi Alpha

resourcing

Continued coaching and development of our directing teams on the central valley campuses we've planted has yielded an explosive year of ministry through their faithfulness to Christ!

Ministering at conferences with sons in the faith to help equip the church

The CEO of a major enterprise hung his phone up from firing an employee, looked at me and said these words I will never forget, "If you want to stay employed in this economy you need to be great at what you do". While the threat of unemployment is not my motivating force I have come to recognize that one of the greatest ways we serve the Lord is found in the simplest of forms, resourcing. No one is looking for more to do, but they are looking to do more with what they have. Like a little boy with a few fishes and loaves we work hard to give freely of what God has graced us with and continue to see unquantifiable fruit from the miracle of our "yes" in His hands.

Film projects to help resource ministries nationwide in Spirit baptism and gifts, and encounter evangelism

West Coast Chi Alpha strengthening

**Northern Arizona
University**

**University of
Arizona**

**University of
California, Davis**

**Stanford
University**

Thank you for sending us on the continued journey to set our feet on the soil of every west coast university where our campus missionaries serve. During these site visits we laughed, wept, and reached deep in prayer with those who lay their lives down daily for student's souls.

We saw hope restored, encouragement increased, and expectations for what God will do rise!

"So the churches were strengthened in the faith and grew daily in numbers"
Acts 16:5

West Coast Chi Alpha

— testimonies

SDSU students minister in the gifts of the Spirit and see countless lives transformed!

One of the great promises of God to us as we began serving in this new missionary role was that He would expand the grace on our lives to reach the lost and equip the saved for the work of the ministry. We had the privilege of providing ministry and training to over 400 students at our west coast winter conference in deliverance, healing, evangelism, and Spirit Baptism. Each of these sessions were designed to empower students to freely and intentionally give what they have received in Christ. Hundreds of students like Brittany at SDSU were immediately impacted by this ministry. She was saved on campus and filled with the Holy Spirit a few hours later because students walked out the word of God!taught to them!

Debra ministering the deliverance and healing of Jesus to over 400 students!

West Coast Chi Alpha training

Equipped over 100 students in Colorado for Spiritual gifted outreach on campus at CSU! Salvations, healings, Spirit baptisms, and best of all, students walking with God in reaching and ministering to their peers!

As area directors our feet are less often dirtied by crossing the campus to minister directly to students, but we are reaching, mentoring, and training students daily through equipping the saints for the work of the ministry. While I personally got to lead three students to Christ and pray with hundreds to be healed, filled with the Holy Spirit, and strengthened in faith over the last semester, the primary fruit was seen in the army we are privileged to send rather than audiences we gather.

13 West Coast Missionaries equipped in pioneering boot camp!

5 New Campus Missionaries trained to raise support to 100%
